Academics
We are aimed at fostering a learning environment mentally and physically stable for our students to have many on and off campus activities. Our students come to understand themselves through these activities, plan their career path and future life, and become a valuable asset to the community and society.

Student Success Competencies

For groundwork of an SKKU role model (Cultured person, Leader, and Expert), our students are aimed to have 5 competencies for their success: Global, Self-directed Learning, Entrepreneurship, Convergence, and Citizenship.

Expectations

- Student success mind expansion
- Students’ improved adaptability to campus communities and life
- High-quality student service collaborating with partner institutions
- Leading innovative higher education for student success
